- └─ #25 TO #32 ⑤

Order entry examples

Example 1: K800 cradle, 3 pole, standard, for use with a manually operated circuit breaker. No wiring diagram used for the breaker.
 Correct cradle catalog number: C1225-10-0000

Example 2: K1600 cradle, 3 pole, provisions for Kirk Key interlock, for use with an electrically operated circuit breaker per wiring diagram 708601. used for the breaker.
 Correct cradle catalog number: C1235-11-0001

Example 3: K3000 cradle, 3 pole, standard, for use with an electrically operated circuit breaker with an unknown wiring diagram.
 Correct cradle catalog number: C1255-10-____
 Digits 7-10 are left blank if the correct numbers are not known.

NOTES:

- ① Also applies to breaker type "S" or "M" suffix.
- ② Provisions only for the interlock. Customer provides and mounts Kirk Key type "FX" lock per 146480-F, or "M2FX" per 147400-F.
- ③ Also requires (2) separate cables. p/n 708899- (contact Circuit Breaker Division for complete details before ordering).
- ④ If By-Pass switches between Secondary Disconnect # 17-18 & 21-22 are required, change catalog digit number from "3" to "5".
- ⑤ If By-Pass switches between Secondary Disconnect # 25-26 & 29-30 are required, change catalog digit number from "4" to "6".
- ⑥ For any catalog number not described above, contact the Circuit Breaker Division.
- ⑦ If trying to use previous cradle cat. number, contact CBD for assistance. (Must convert old S.D. 2 digit # into 4 digit # shown above.)
